

## About the role

The Financial Controller will oversee the company's accounting function, ensuring that records are compliant and accurately kept. This individual will be responsible for streamlining accounting processes and internal controls as we scale. Reporting directly to the CFO, this role will work closely with senior management to develop strategic financial plans. The ideal candidate has a background in accounting, strong communication skills and is technologically savvy. If you're eager to learn and excited to work in a high-growth organization, you'll love this opportunity.

## Key Responsibilities

- Supervise accounting operations, including general ledger functions, accounts payable, and accounts receivable.
- Establish robust internal control processes and financial reporting systems based on generally accepted accounting principles and regulatory requirements.
- Support the CFO to develop budgets, forecasts, and other financial analysis for senior management, shareholders, and auditors.
- Build out, manage, and develop the accounting team.
- Lead the implementation of systems to streamline and automate accounting systems.
- Collaborate with IT to integrate the new ERP with accounting systems and existing business applications.
- Stay updated with future legislation about tax and operations to ensure compliance
- Track and manage cash flow and working capital.
- Engage and collaborate with nonfinance staff to build relationships across business departments
- Improve the process of collecting, analyzing, and consolidating financial data.
- Build and manage the relationship with external auditors to ensure compliance with auditing requirements and standards.

## Qualifications

- Experience developing IFRS financial statements
- SaaS accounting operations experience, including SaaS revenue recognition (ASC 606) and inventory (ASC 330)
- Technical knowledge of balance sheets and cash flow
- Experience working with a fast-growing tech startup
- Deep understanding of U.S. GAAP
- Familiarity with [ERP] is a plus
- Leadership skills with evidence of developing finance team members
- Strong communication skills with a track record of communicating complex financial information

## Education

CPA, CMA, and bachelor's degree or master's degree in finance preferred.
